Kummil P.O Kollam – Dist -691536

Ph.07559945903, 9447267121
Email:handpgranites@gmail.com

Date: 23.07.2025

To,
State Environment Impact Assessment Authority (SEIAA) Kerala,
Department of Environment and Climate Change,
K.S.R.T.C Bus Terminal Complex,
4th Floor Thampanur,
Thiruvananthapuram – 695 001
Kerala.

Subject: Submission of Revised HYCR in Compliance with Environmental Clearance for the Expansion of Granite Building Stone Quarry Project of M/s H & P Granites over an Area of 9.0681 Ha at Block No. 50, Re-survey Nos. 462/01, 462/01-2, 462/02, 465/01, 465/04, 465/04-2, 465/05, 481/01-2, 481/01-1, 482/02, 482/02-2, 482/02-3, 482/04, 482/05, 482/06, 83/03, 483/04, (Patta Land), 464, 465/03, 465/08, 482/01, 482/03, (Govt. Land) in Kummil Village, Kottarakara Taluk, Kollam, Kerala.

Reference:

1. Your Letter No. 1210(A)/EC2/2019/SEIAA, dated 02.07.2025

Respected Sir,

We hereby submit the revised Half-Yearly Compliance Report (HYCR), along with geo-tagged photographs and relevant documents, as proof of compliance with the conditions stipulated in the Environmental Clearance granted for the aforementioned project.

We kindly request you to acknowledge the receipt of the submission.

Thank you for your time and consideration.

Yours faithfully,

H & P Granites
For H&P GRANITES
Shrikhande

(Shrikhande Chaitanya Vinay)
Sincerely,
Mines Manager

Encl : Cover letter
Environmental compliance
Annexures

Special condition remarks and its compliances

Condition No.	Remarks	Compliance
02	Proof required	A copy of proof is attached as Annexure 1.
03	Lease order required to be submitted in SEIAA.	Lease order is attached as an annexure 2.
05	Geo-tagged photographs of the drainage and sampling site is required.	Monitoring of soil, air, bore well and noise monitoring report is attached as an annexure 3.
06	Proof of facilities provided for labours are required.	Geo-tagged photographs are attached as Annexure 4.
07	Geo-tagged photographs required.	Geo-tagged photographs are attached as Annexure 5.
08	Claimed as complied (Proof required).	A copy of letter is attached as Annexure 6
09	Geo-tagged photographs of present condition of bench developments may be provided.	Geo-tagged photographs are attached as Annexure 7.
10	Nor complied.	The overburden removing is currently carried out. It will take care with the condition.
11	Proof of implementation of CER activities required.	Details of CER activities with proof are attached as Annexure 8.
13	Photographs are not satisfactory. Geo-tagged photographs of tree species required.	Geo-tagged photographs of some tree species is attached where some area available as annexure 10.
14	Partially complied	Geo-tagged photographs are attached as Annexure 11.
15	Not complied	Details are attached as an annexure 12.
16	Partially complied	Geo-tagged photographs are attached as Annexure 11.
19	Geo-tagged photographs of blasting mats are required	Geo-tagged photographs are attached as Annexure 14.

21	Proof required	Proof is attached as Annexure 15
22	Not complied	This will be complied as a project move further. Project is currently undergoing and no free area available to do.

General condition remarks and its compliances

Condition No.	Remarks	Compliance
01	Copy required (Not seen submitted in file)	A copy of proof is attached as Annexure 16.
02	Copy required	Explosives license, manager's certificate attached as annexures 16A.
03	Proof required	Attached as Annexure 17
05	Geo-tagged photographs required.	Attached as Annexure 18
06	Geo-tagged photographs required.	Attached as Annexure 19
07	Geo-tagged photographs required.	Attached as Annexure 20
08	Geo-tagged photographs required.	Attached as Annexure 21
09	Geo-tagged photographs required.	Attached as Annexure 22
12	Geo-tagged photographs required.	Attached as Annexure 23
14/15	Geo-tagged photographs required.	Attached as Annexure 1 and 7
17	Proof required.	Attached as annexure 24
18	Proof required.	Plantation will be carried out as we go further in quarrying operations, as of now no free area available to do plantation in such extent.
22	Proof required.	Photographs and reports is attached as annexure 25 and 3.
24	Proof required.	Photograph is attached as annexure 26.
25	Proof required.	Photograph is attached as annexure

		20.
26	License and details of manager is required.	Attached as Annexure 27
27	Measures adopted shall be described along with proof.	Quarry entry gate to crusher road is black topped with paver blocks to control noise. Monitoring of noise level is being done 6 monthly. Report is attached as annexure 3.
35	Geo-tagged photographs required.	Attached as Annexure 28
37	Proof required.	Attached as Annexure 30
38	Proof required.	Attached as Annexure 29
39	Proof required.	Attached as Annexure 29
40	Proof of implementation of CER required.	Attached as Annexure 8
41	Proof required	Attached as Annexure 4 and 31.
42	Not complied	Reports attached as annexure 32 and 33
43	Not complied	Reports attached as annexure 32 and 33

COMPLIANCE REPORT

Of

M/s. H & P GRANITES

6/530, Kondody

Village: Kummil, Taluk: Kottarakkara

District: Kollam, State: Kerala

For the period 1st October 2024 to 31st March 2025

SPECIFIC CONDITIONS:

Sr. No.	Conditions	Precautions Taken
1	The Project Proponent shall carry out quarrying as per the approved Mining Plan and the Specific Conditions mentioned hereafter. The Project Proponent should strictly follow the Kerala Minor Mineral Concession Rules 2015 and amendments thereby.	PP is aware about the condition.
2	The depth of mining is limited to 135m above MSL considering the depth to the groundwater table and hence a revised Scheme of Mining shall be prepared as per which the total mineable reserve will be reduced to that extent. Department of mining and Geology shall rework the quantity and issue transport permits only for the reworked reduced quantity.	Considering depth of MSL 135m revised Mining plan submitted to DMG office for mineable reserve. A copy of mining plan is attached as Annexure I .

3	The EC shall be valid from the date of execution of permit/lease from the Department of Mining and Geology. The copy of the lease order should be provided to the SEIAA before commencing the mining activity.	Lease order is attached as an annexure 2 .
4	The EC issued will be subject to a review by SEAC after 5 years through filed verification to ensure that mining is carried out sustainably as per the EC conditions.	PP is aware about the condition.
5	Monitoring of drainage water should be carried out at different seasons by an NABL accredited lab and clear water should only be discharged into the natural stream. Geo-tagged photographs of the drainage and sampling site should be submitted along with HYCR.	Monitoring of drainage water will be carry out in monsoon season. As all rain and quarry water is harvested and used for crusher and water sprinkling. Monitoring of soil, air, bore well and noise monitoring report is attached as an annexure 3 .The geo-tagged photographs of drainage water will do in this monsoon and attached in next HYCR.
6	Adequate sanitation, waste management and rest room facilities should be provided to the workers.	Adequate sanitation, waste management and rest room facilities are provided to the workers. Geo-tagged photographs are attached as Annexure 4 .
7	Adequate energy conservation measures proposed should be implemented including solar power installations for street light and office	Solar power installed near plant street light. Photo is attached as Annexure 5 .
8	Operation of the H&P Granites and Vismaya Rocks shall be monitored regularly committee headed by an Official of the State Pollution Control Board with Project Proponents of H&P Granites and Vismaya Rocks, a representative of Kummil Grama Panchayat, and a representative from Department of mining and Geology as members. The monitoring report of the committee shall be a part of half yearly completion report and the Project proponent shall take all corrective measures as suggested by committee.	An official persons from Kerala state pollution control board conducted inspection on Dated 05 th august 2024. A copy of letter is attached as Annexure 6

9	The height and width of the benches are not maintained uniformly as per the stipulations in the approved mine plan and it should be corrected immediately wherever there is inadequacy	Geo-tagged photographs are attached as Annexure 7.
10	The overburden dumping site should be protected with gabion walls to prevent erosion.	The overburden removing is currently carried out. It will take care with the condition.
11	Measures incorporated in the CER should be implemented in total during the first two years and they should be operated and maintained during the subsequent years till the mine closure plan is implemented in total.	Details of CER activities with proof is attached as Annexure 8.
12	Impact of vibration due to blasting should be monitored in terms of Peak Particle Velocity and amplitude for maximum charge per delay and included in the Half Yearly Compliance Report.	The report of blasting vibrations in terms of PPV is attached with HYCR as Annexure 9.
13	Compensatory afforestation should be done from the 1st year itself and the coordinates of the area with geo-tagged photos should be submitted in HYCR.	Compensatory afforestation will be carried out as and when free area is available. Geo-tagged photographs of some tree species are attached where some area available as annexure 10.
14	Garland drains along with silt traps should be provided considering the entire project area and it should be drained to the existing siltation ponds or additional ones. If necessary, the carrying capacity of the siltation ponds and outflow channel should be enhanced	Garland drains along with silt traps are provided and geo-tagged photographs are attached as Annexure 11.
15	The Project proponent shall carry out the recommendations made after public hearing as per the approved EIA and EMP reports.	It is not directly connected to quarry operations. Detail Recommendations made after public hearing is attached as an annexure 12.

16	The garland drain, silt traps, siltation ponds and outflow channel should be cleaned and de-silted periodically and geo-tagged photographs of the process should be uploaded in the HYCR	The garland drain, silt traps, siltation ponds and outflow channel and de-siltation were cleaned and geo-tagged photographs of the same attached as Annexure 11.
17	The minutes of the meeting of the EMC along with the action taken report of the decisions of the EMC, authenticated by the Chairman and Environmental Officer of the EMC should be uploaded in the HYCR	The minutes of the meeting of the EMC was held at H & P granites office on 11 th December 2024. The minutes of such meeting attached as Annexure 13.
18	The transportation of the mined material should be regulated as per the traffic management plan and no movement of trucks should be allowed during the peak hours in the forenoon and afternoon.	PP is aware about the condition.
19	Blasting mats should be used during rock blasting to contain the blast, prevent fly rocks and suppress dust.	Blasting mats is provided to control rocks blasting, prevent fly rocks and suppress dust, geo-tagged photographs is attached as Annexure 14.
20	As per OM no F.No.22-65/2017-IA.III dated 30th September 2020, under Corporate Environmental Responsibility (CER) the Project Proponent should implement the Environment Management Plan (EMP)/CER as directed by SEAC during appraisal, covering the issues to address the environmental problems in the project region, from the beginning of the project, indicating both physical and financial targets year wise. The EMP/CER shall be implemented in consultation with Local Self Govt. Institutions. A copy of the approved EMP/CER shall be made available to the concerned panchayat for information and implementation support. The indicated cost for implementation of CER activities shall be 2% of the project cost.	PP is aware about the condition.

21	In the wake of occurrence of large scale landslides in the state, as per the information provided by the Department of Mining & Geology, it is directed to use only NONEL (Non Electrical) technology for blasting to reduce the vibration of the ground, which is 64 one of the causative factors that triggers landslides, formation of cracks in the surrounding buildings and disturbance to human and wildlife.	To reduce vibrations and other factors mentioned in EC condition NONEL blasting is carried out in quarry. Also no of holes per round is also under control. Proof is attached as Annexure 15 .
22	As per the directions contained in the OM F.No.22-34/2018-IA.III dated 16th January 2020 issued by MoEF & CC, in obedience to the directions of the Hon'ble Supreme Court the Project Proponent shall, undertake re-grassing the mining area and any other area which may have been disturbed due to his mining activities and restore the land to a condition which is fit for growth of fodder, flora, fauna etc. The compliance of this direction shall be included in the Half Yearly Compliance Report which will be monitored by SEAC at regular intervals.	This will be complied as a project move further. Project is currently undergoing and no free area available to do.
23	The violation of EC condition may lead to cancellation of EC and action under The Environment (Protection) Act 1986.	PP is aware about the condition.

Item No.	Stipulations in EC	Status of Compliance
G-1	The proponent should provide notarized affidavit (indicating the number and date of Environmental Clearance proceedings) that all the conditions stipulated in the EC shall be scrupulously followed.	Attached as an annexure 16.
G-2	All the statutory clearances should be obtained, as applicable, by the project proponent from the respective competent authorities including that for blasting and storage of explosives. Copies of all statutory clearances shall be submitted along with First Half Yearly Compliance Report.	Explosives license, manager's certificate and other documents attached as annexures.
G-3	The project proponent should advertise in newspapers that the project has been accorded Environmental Clearance and copies of clearance letters are available in the Office of State Environment Impact Assessment Authority (SEIAA) and on the website of the Authority at www.seiaakerala.in . The advertisement should be in at least two local newspapers widely circulated in the region, one of which shall be in the vernacular language. The advertisement should be made within 10 days from the date of receipt of the Environmental Clearance letter and a copy of the same signed in all pages should be forwarded to the office of this Authority as confirmation.	Copy of newspaper is attached as Annexure 17.
G-4	The proponent shall send a copy of the EC to concerned Grama-Panchayat/ District Panchayat/ Municipality/Corporation/Urban Local Body and also to the Local NGO, if any, from whom suggestions /representations, if any, were received while processing the proposal. The Environmental Clearance shall also be uploaded on the website of the company.	EC order will uploaded on company website as early as possible.

Item No.	Stipulations in EC	Status of Compliance
G-5	The lease area shall be fenced with barbed wire to a minimum height of 4ft around, before starting mining. All the boundary indicators (boards, markings, etc) shall be conspicuous and maintained at all times.	The entire lease boundary is properly fenced with barbed wire with concrete pillars. Photograph is attached as Annexure 18 .
G-6	The details of Environmental Clearance should be prominently displayed in a metallic board of 3 ft x 3 ft with green background and yellow letters of Times New Roman font size of not less than 40. Sign board with extent of lease area and boundaries shall be depicted at the entrance of the quarry, visible to the public.	Details are displayed in front of Quarry gate. Geo-tagged photograph is attached as an annexure 19 .
G-7	Explosives should be stored in magazines in isolated place specified and approved by the Explosives Department. Mats to reduce fly rock blasts to a maximum of 10 PPV should be provided.	Approved explosive magazine is located in isolated place and all explosive material is kept in Magazine. Mats are provided to reduce fly rocks. Geo-tagged photograph is attached as an annexure 20 .
G-8	Warning alarms indicating the time of blasting (to be done at specific timings) has to be arranged stipulated by Explosive Department.	Blasting operations are always preceded after Siren only, followed by removing all machineries & persons from blasting zone. Blasting Time board is fixed at the entrance of quarry. Geo-tagged photograph showing sign board is attached as an annexure 21 .
G-9	Access roads to the quarry shall be black topped to contain dust emissions that may arise during transportation of materials. The transportation of minerals should be done in covered trucks to contain dust emissions.	Access roads are of interlocking bricks and are widened by same interlocking bricks. It is properly maintained besides regular watering to avoid dust generation during transport of vehicles. Geo-tagged photograph is attached as an annexure 22 .

Item No.	Stipulations in EC	Status of Compliance
G-10	A separate Environmental Management Cell (EMC) with suitable qualified personnel should be set-up under the chairmanship of a Senior Executive, who will report directly to the Head of the Organization. The Cell should have representative of Biodiversity Management Committee of the Panchayath and a representative of NGO, if any active in the area. The EMC should meet at least once in six months and review the activities and minutes should be a part of the compliance report.	Environment Monitoring Cell is constituted as below: 1. Mr. Harish G Nair (Managing Partner) 2. Mr. Shrikhande Chaitanya Vinay (Member) 3. Mr. Saneesh Mullackal (Member) The EMC meeting conducted at a regular interval at Mine office and minutes of meeting has been kept recorded and attached as annexure 13.
G-11	Quarrying has to be carried out as per approved mining plan with the suggestions from SEAC incorporated and following KMMC rules 2015 and the Amendments thereby.	PP is aware about the condition.
G-12	The quarrying operation (Blasting) shall be restricted between 7 AM and 5PM	PP is aware about the condition.
G-13	Rain Water Harvesting facility should be installed as per the prevailing provisions of KMBR/KPBR, unless otherwise specified. Maximum possible solar energy generation and utilization shall be ensured as an essential part of the project.	In quarrying area Rain water harvesting is implemented as all the rain water is collected in the bottom pit. Solar energy will be provided near as and where needed. Photographs attached as an annexure 23.
G-14	Maximum depth of mining shall be as per the mining plan and as per specific direction of SEAC after field inspection. The maximum depth of mining should not be deeper than the local ground water table. No mining operations should be carried out at places having a slope greater than 45°.	Maximum depth of quarry and mining operations will be followed as per the mining plan as per SEAC. Photographs attached as annexure I.

Item No.	Stipulations in EC	Status of Compliance
G--15	The height of any bench shall not exceed five meters and breadth shall not be less than the height.	Height and width of benches are maintained as stipulated in EC document. Photographs attached as annexure 7.
G-16	The Project proponent shall ensure that no perennial or intermittent natural water course and/or water resources are obstructed due to any mining operations. Necessary safeguard measures to protect the first order streams, if any, originating from the mine lease shall be taken.	PP is aware about the condition.
G-17	A minimum buffer distance specified as per existing rules and statutory orders shall be maintained from the boundary of the quarry to the nearest dwelling unit or other structures, and from forest boundaries or any other ecologically sensitive and archeologically important areas or the specific distance specified by SEIAA in EC as per the recommendations of SEAC depending on specific local conditions.	A buffer zone is maintained all along the lease boundary attached as annexure 24.
G-18	The proponent should plant seedlings at least 5 times of the loss of trees that has occurred while clearing the land for the project and follow planting measures as Suggested by SEAC. Suitable avenue trees should be planted along the sides of the approach road and internal roads and open parking areas, if any. Preference should be given to endemic native and fruit bearing species. Planting in buffer areas should be taken up beforehand. Proper upkeep and maintenance of planted seedlings shall be ensured by the project proponent.	Plantation will be carried out as we go further in quarrying operations. As specified in EC fruit bearing species like banana, coconut will be planted. As of now no free area available to do plantation in such extent.
G-19	The proponent should ensure that the vegetation in the buffer is retained, maintained and strengthened with additions of native broad leaved plants.	PP is aware about the condition.

Item No.	Stipulations in EC	Status of Compliance
G-20	Eco-restoration including the closure of mine as per the progressive closure plan and final closure plan shall be done at the cost of the project proponent. This eco-restoration should follow scientific standards available for restoration, full recovery of the original vegetation and improving the resilience of different ecosystems. Overburden materials should be managed within the site and used for reclamation of mined pit as per mine closure plan / specific conditions.	PP is aware about the condition.
G-21	At least 10 percent out of the total excavated pit area should be retained as water storage areas and the remaining area should be reclaimed with stacked dumping and overburden and planted with suitable indigenous plant species, if no other specific condition on reclamation of pit is stipulated in the E.C. Monitoring and management of rehabilitated areas should continue until the vegetation becomes self-sustaining.	PP is aware about the condition.
G-22	Control measures on noise and vibration prescribed by KSPCB should be implemented. Quarrying activities should be limited to day time as per KSPCB guidelines/specific conditions.	Control measures on noise and vibration is taken as pavers block is provided from quarry gate to crusher unit to reduce noise. Periodical monitoring of the vibration and noise in mines is done through studies. Photographs and reports is attached as annexure 25 and 3.
G-23	Periodical monitoring of the vibration at specified location (preferably at a distance of 50 m and 100 m) to be conducted and records kept for inspection. This could also form a part of the compliance reports.	Blasting vibration studies is carried out as per the EC instructions. Report of such attached with compliance as Annexure 9.
G-24	Speed of trucks entering or leaving the mine site is to be limited to moderate speed of 25 kmph to prevent undue noise from empty trucks.	Speed of trucks entering or leaving the mine site is maintained moderate at a speed of 25 kmph to prevent undue noise. Sign boards with specific speed limit also placed. Photographs and reports is attached as annexure 26.

Item No.	Stipulations in EC	Status of Compliance
G-25	Acoustic enclosures should be provided to reduce sound amplifications in addition to the provisions of green belt and hollow brick envelop for crushers so that the noise level is kept within prescribed standard limit indicated by CPCB/KSPCB.	Geo-tagged photographs is attached as annexure 20.
G-26	Blasting should be done in a controlled manner using NONEL technique as specified by the regulations of Petroleum and explosive safety organization (GOI) or any other concerned authorized agency. A licensed person should supervise/ control the blasting operations.	License and details of Mine manager is attached as annexure 27.
G-27	Measures should be taken for maintaining noise levels below 85 dBA in the work environment.	Regular monitoring of Noise level is being conducted and overall noise level is kept under permitted level. Report of poluchem lab is attached. PP is aware about the condition.
G-28	Project proponent should obtain necessary prior permission of the competent authorities for drawing requisite quantity of surface water and ground water for the project.	PP is aware about the condition.
G-29	Regular monitoring of flow rates and water quality upstream and downstream of the springs and perennial nallahs flowing in and around the mine lease area shall be carried out and reported in the six monthly compliance reports to SEIAA.	PP is aware about the condition.
G-30	Catch drains and siltation ponds of appropriate size shall be constructed around the mine working, mineral and OB dumps, to prevent run off of water and flow of sediments directly into the river and other water bodies. The water so collected should be utilized for watering the mine area, roads, and for green belt development etc. The drains shall be regularly de-silted and maintained properly, particularly after monsoon.	Catch drains and siltation ponds is provided and all run off of water and flow of sediments directly into pit –bottom. Photo of stored water is attached as annexure 23.

Item No.	Stipulations in EC	Status of Compliance
G-31	Regular monitoring of ground water level and quality shall be carried out around the mine area during mining operation. If any stage, if it is observed that ground water table is getting depleted due to the mining activity; necessary corrective measures shall be carried out.	PP is aware about the condition.
G-32	Garland drains and silt traps are to be provided in the slopes around the core area to channelize storm water. De-silting of Garland canal and silt traps have to be attended on a daily basis. A labour has to be specifically assigned for the purpose. The proponent shall ensure the quality of the discharging storm water as per the General Effluent Discharge Standards of CPCB.	Quarry area is provided with garland drains so that all water is diverted in the pit and from there it is diverted to settling pond. Other areas are provided with drains to divert the water to main drainage.
G-33	In the case of any change(s) in the scope of the project, extent, quantity, process of mining technology involved or in any way affecting the environmental parameters/impacts as assessed, based on which the E.C was issued, the project would require a fresh appraisal by this Authority, for which the proponent shall apply and get the approval of this Authority. In the case of transfer of ECs, the matter shall be intimated and get the approval from the Authority as per the existing norms.	PP is aware about the condition.
G-34	The stipulations by Statutory Authorities under different Acts and Notifications should be complied with, including the provisions of Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act 1981, the Environment (Protection) Act, 1986, the Public Liability (Insurance) Act, 1991 and EIA Notification, 2006.	PP is aware about the condition.

Item No.	Stipulations in EC	Status of Compliance
G-35	<p>The top soil, if any, shall be temporarily stored at earmarked place (s) and used for land reclamation and plantation. The over burden (OB) generated during the mining operations shall be stacked at earmarked dump site(s) only. The maximum height of the dumps shall not exceed 8m and width 20m and overall slope of the dumps shall be maintained at 45°. The OB dumps should be scientifically vegetated with suitable native species to prevent erosion and surface run off. At critical points, use of geo textile shall be undertaken for stabilization of the dump. Protective wall or gabions should be made around the dump to prevent erosion / flow of sediments during rains. The entire excavated area shall be backfilled.</p>	<p>Topsoil is stored separately and will be using during plantation. Dump is maintained as per the approved Mining plan. Photo id attached as annexure 28.</p>
G-36	<p>All the mining equipment used in Mining like backhoe loaders and excavators cause pollution and hence shall be serviced regularly & maintained for their efficient functioning and for reducing pollution. Disposal of spent oil from diesel engines should be as specified under relevant Rules/ Regulations.</p>	<p>PP is aware about the condition.</p>
G-37	<p>All vehicles used for transportation and within the mines shall have 'PUC' certificate from authorized pollution checking centre. Washing of all vehicles shall be inside the lease area.</p>	<p>Attached as annexure 30.</p>
G-38	<p>Effective safeguard measures such as regular water sprinkling shall be carried out in critical areas prone to air pollution such as haul road, loading and unloading points and transfer points and having high levels of PM10 and PM2.5. Monitoring of Ambient Air Quality to be carried out based on the Notification 2009, as amended from time to time by the Central Pollution Control Board.</p>	<p>Two water tanker of 10L capacity is kept in quarry area and water is sprinkled on regular basis. Geo-tagged photograph is attached as annexure 29. Report of poluchem lab of air quality is attached as annexure 3.</p>

Item No.	Stipulations in EC	Status of Compliance
G-39	Fugitive dust emissions from all the sources should be controlled regularly. Water spraying arrangement at project site, parking area, on haul roads, loading and unloading and at transport points should be provided and properly maintained.	Geo-tagged photograph is attached as annexure 29.
G-40	Corporate Environmental Responsibilities (CER) as prescribed by SEIAA/SEAC should be carried out leading to Environmental stability of the Project region. The activities carried out under CER should be a part of the half yearly compliance report. The certificates from the beneficiaries, if the CER part is completed should also be submitted to the State Environment Impact Assessment Authority (SEIAA) along with year wise Expenditure.	Corporate Environmental Responsibilities (CER) is being carried out and details of month wise expenditure is attached as Annexure 8 .
G-41	The project proponent is responsible for implementing all the provisions of labour laws applicable from time to time to quarrying /Mining operations. The workers on the site should be provided with on-site accommodation or facilities at a suitable boarding place, protective equipment such as ear muffs, helmet, etc.	Geo-tagged photograph is attached as Annexure 4 and annexure 31.
G-42	The proponent has to provide insurance protection to the workers in the case of existing mining or provide the affidavit in case of fresh lease before execution of mining lease.	Compiled attached as an annexure 32.
G-43	Occupational health surveillance program of the workers should be undertaken periodically to observe any contractions due to exposure to dust and take corrective measures, if needed. The report of health surveillance programme should be included in the half yearly compliance reports.	Compiled attached as an annexure 33.

Item No.	Stipulations in EC	Status of Compliance
G-44	The pits in the abandoned quarries and in the mined area shall be used for activities like water harvesting, aqua culture etc. in an eco-friendly manner.	Geo-tagged photographs is attached as Annexure 23.
G-45	If Government land is partly or fully used for mining, the area shall be returned at the end of lease period after mine closure with separate demarcation with suitable survey marks.	NA
G-46	Any accident occurring in the mined out area after the lease period due to negligence in carrying out safety measures and non-closure , will lead to suspension of all EC obtained for mining by the Proponent.	PP is aware about the condition.
G-47	In case of transfer of EC the matter shall be intimated and approval from the Authority shall be obtained as per the existing norms.	PP is aware about the condition.
G-48	The proponent shall submit Half Yearly Compliance Reports (1st of June & 1st of December) on the status of compliance of the stipulated EC conditions including results of monitored data (both in hard copies as well as by e-mail) and upload the status of compliance of the stipulated EC conditions, including results of monitored data on their website and shall update the same periodically. It shall be simultaneously sent to the respective Regional Office of Ministry of Environment, Forests and Climate Change, Govt. of India and also to the Office of State Environment Impact Assessment Authority (SEIAA). The proponent has to submit Environmental statement in form V of Environment (Protection) Rules 1986 to SPCB on 31st March every year.	PP is aware about the condition.

Item No.	Stipulations in EC	Status of Compliance
G-49	The project authorities should extend full cooperation to the officer (s) from the Regional Office of MOEF & CC located at Bangalore/SEAC/SPCB/CPCB/dept of Mining and Geology, while monitoring compliance of the stipulated conditions, by furnishing the requisite data/information/monitoring reports.	PP is aware about the condition.
G-50	The above conditions shall prevail notwithstanding anything to the contrary, in consistent, or simplified, contained in any other permit, license on consent given by any other authority for the same project.	PP is aware about the condition.
G-51	The Authority reserves the right to add additional safeguard measures subsequently, if found necessary, and to take action including revoking of the Environment Clearance under the provisions of the Environment (Protection) Act, 1986, to ensure effective implementation of the suggested safeguard measures in a time bound and satisfactory manner.	PP is aware about the condition.
G-52	The EC given will be withdrawn at any time if the area is declared high hazardous by the SDMA.	PP is aware about the condition.
G-53	The Environmental Clearance will be subject to the final order of the courts on any pending litigation related to the land or project, in any court of law.	PP is aware about the condition.
G-54	Any appeal against this Environmental Clearance shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.	PP is aware about the condition.
G-55	Concealing the factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.	PP is aware about the condition.

Item No.	Stipulations in EC	Status of Compliance
G-56	The SEIAA may revoke or suspend the order, for non-implementation of any of the specific or any of the above conditions. The SEIAA reserves the right to alter/modify the above conditions or stipulate any further condition in the interest of environmental protection.	PP is aware about the condition.
G-57	As per regulation no. 106(2) of metalli-ferous mines regulation under Mine act, the height of any bench shall not exceed six meters and breadth shall not be less than the height.	PP is aware about the condition.

**MODIFIED MINING PLAN FOR THE GRANITE BUILDING STONE
QUARRY OF H & P GRANITES**

(Under Rule 56 (2) of Kerala Minor Minerals Concession Rules, 2015)

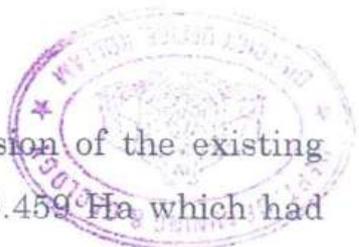

CHAPTER – 1

INTRODUCTORY NOTE:

This mining plan is prepared for the Granite Building Stone quarry project in the Re-Survey.Nos.462/01, 462/01-2, 462/02, 465/01, 465/04, 465/04-2, 465/05, 481/01-2, 481/01-1, 482/02, 482/02-2, 482/02-3, 482/04, 482/05, 482/06, 483/03, 483/04 (Patta Land), 464, 465/03, 465/08, 482/01,482/03 (Govt. Land)in Block No. 50 of Kummil Village, Kottarakkara Taluk, Kollam District, extends over an area of 9.0681 Ha. Of M/s H & P Granites and approved on 17.12.2018 by the Kollam District Geologist vide letter No. 4058/DOQ/S2/2018.

The lessee approached the MoEF for the grant of Environmental Clearance for the project immediately after the mining plan is approved. But due to various reasons the grant of EC is delayed and finally during 135th SEAE meeting of the Kerala State Environment and Climate Change Department approved the EC with a condition that the Approved Mining Plan has to be revised as almost 4 years have passed since the approval.

It may be noted that the this project is an expansion of the existing ongoing project H& P Granites over an extent of 5.459 Ha which had the environmental clearance vide No. 93/2017 dated 29.11.2017 and the mine is being worked continuously with all requisite permissions from various departments/agencies.

In light of the above and with the directions of the MoEF, Kerala we are here in submitting the following Modifications to the approved Mining plan under Rule 56 (2) of Kerala Minor Minerals Concession Rules, 2015.

EXTENT OF PROPOSED MODIFICATIONS:

The following details are incorporated in these modifications:

1. SEAC committee of MoEF, Kerala has put a condition that the Mining Activity shall be restricted to 135 MSL and there is a chance of touching the Ground Water Table below 135 MSL. (The Environment Clearance is enclosed as Annexure- 17-A)
2. The quarry working could not be started from the year 2019 to 2023 as we could not get Environment clearance. As such the proposed 5 year production & development plan has to be changed from the year 2023-24 to 2027-28.
3. The Geological and Mineable Reserves will be modified taking into consideration the already worked out quantity in the earlier lease over an extent of 5. 459 Ha.

Sub Registrar,

2. The lessee/lessees shall during the subsistence of this lease have the liberty to work the said mineral/minerals and remove the same from the leasehold on permits issued by the State Government/competent authority or any other officer authorized by him in this regard. The permits shall be issued only on the basis of pre-paid royalty at the rates specified in Schedule I to these Rules. The royalty rates shall be subject to revision from time to time as the State Government may order.

3. The lessee/lessees shall pay to the State Government a yearly surface rent equal to the land revenue if any, assessable under the rules for the time being in force, or if the land be the property of Government or in reserve forest then equal to the land revenue plus cess, if any, per hectare of the land the surface whereof shall be occupied or used by the lessee/lessees for any of the purposes of this deed and so in proportion for any area less than one hectare. The said surface rent shall be paid by yearly payments; the first of such payments to be made on or before the last day of the first year of occupation provided always that no such rent shall be paid or demanded in respect of any roads or ways now in existence.

4. The lessee/lessees shall at all times during the currency of this lease keep correct and intelligible books of account showing accurately the quantity of the said minerals extracted and the weight and value of the said mineral sold or exported together with the names of the purchasers or consignees.

The lessee shall also maintain a register of employees showing therein separately men, women employed daily and shall at reasonable times allow the competent authority appointed under the rules (hereinafter referred to as "competent authority") or the officer authorized by him to examine the said books of account and the register of employees and to take copies and extracts there from. The lessee/lessees shall submit reports in Forms F and G on the specified dates.

5. All sums found due under or by virtue of this deed from the lessee/lessees may be recovered from him jointly and severally from them and his/their properties movable and immovable under the provisions of the Revenue Recovery Act for the time being in force as though such sums are arrears of land revenue or in any other manner as the State Government may deem fit.

6. The lessee/lessees shall at the lessee's/lessees' own expense erect and at all times maintain and keep in repair boundary marks and pillars along the boundaries of the said lands according to the demarcation shown in the plan here to annexed.

7. The lessee shall not carry on or allow to be carried on any quarrying operations at or to any points within a distance of 100 meters from any railway line except with the previous written permission of the railway administration concerned and any bridge on National Highway or 50 meters from any reservoir, tanks, canals, rivers, bridges, public roads, other public works, residential buildings, the boundary walls of places of

worship, burial grounds or burning ghats or any monument protected by Government except with the previous permission of the authorities concerned or the Government or competent authority. Provided that the railway administration or the State Government or any other authority in this behalf may in granting such permission impose such other conditions as may be found proper and necessary.

8. The sides of open workings shall be sloped, stepped or secured by the lessee in such a manner as to prevent slope failure, when an open working is worked in steps, steps shall be of sufficient breadth in relation to their height to secure safety. In open workings trees liable to fall and all loose ground and material shall be removed by the lessee sufficiently far from the edge or otherwise made source in order to prevent danger to persons employed in the quarry.

9. If a working place is found to be unsafe all persons shall be withdrawn by the lessee/lessees immediately from the dangerous area and all access to such working place except for the purpose of removing the danger of saving life shall be prevented by securely fencing the full width of all entrances to the place.

10. The lessee/lessees shall at all reasonable times allow any officer authorized by the Central Government or by the State Government in that behalf to inspect the said lands and the buildings and plants erected thereon and the lessee/lessees shall assist such persons in conducting the

inspection and afford them all information they may reasonably require, and shall conform to and observe all orders which the Central and State Governments as the result of such inspection or otherwise, may from time to time pass.

11. The lessee shall be responsible for implementing the provisions of the various labour laws applicable, from time to time, to the quarry.

12. The lessee/lessees shall not assign or underlet the said lands or any part there of or the rights or privileges, therein hereby granted or any of them without the previous permission in writing of the State Government/competent authority.

13. Where the lease or any right, title or interest therein has been assigned, sublet or transferred as provided in rule 45 read with condition 12, then the person in whose favor such assignment, sublease or transfer has been made shall be responsible for implementing the provisions of the various labour laws applicable, from time to time, to the quarry.

14. The lease may be surrendered by the lessee/lessees at any time after 3 months notice in writing to the State Government/competent authority: Provided the lessee/lessees has/have paid all sums due on account of the lease. Provided further that if the lessee/lessees elects/elect to determine this lease before the expiry of the term of the lease, shall pay in addition to other dues a sum equal to the dead rent payable for the remaining part of the term of the lease deed.

15. If the lessee/lessees shall be desirous of taking a further lease of the said lands for a further term, he/they shall give three months' previous notice in writing of such desire to the State Government/competent authority and if the lessee/lessees has/have duly observed all the conditions of this lease, the State Government/competent authority may agree to renew the lease for such further term and on such terms and conditions as the State Government/competent authority may determine which shall be in accordance with the provisions of these rules.

16. If the lessee/lessees shall at any time during the said term use the said lands or any part thereof in any manner other than as authorized by this lease or fail to carry on quarrying operations as per the approved mining plan without sufficient cause of which the State Government/competent authority shall be the judge or shall commit a breach of any of the conditions of this lease it shall be lawful for the State Government/competent authority to cancel this lease after giving the lessee an opportunity of being heard or the alternative to receive from the lessee/lessees such penalty not exceeding Rs.5,00,000/- (Rupees Five Lakhs only) for the breach as the State Government/ competent authority may fix.

17. In cases where the area under quarrying lease is Government land, the lessee shall close the mine within three calendar months after the expiry of the lease or its determination and remove any engine, machinery, buildings, structures and other works and conveniences from the area under the lease. If the lessee does not remove the same within the said period,

Date: 07.04.2024

To

The Department head
District Mining and Geology
Kollam Kerala - 691 008

Sir,

Sub: Monitoring of Environmental activities.

We have received the Environmental Clearance for our H&P Granites by the State level Environmental Impact Assessment Authority -Kerala State for conducting the Quarry operations. It has been mentioned under the Specific Conditions, item No. 8 which states as:

“Operation of the H&P Granites and Vismaya Rocks shall be monitored regularly once in 6 months by a committee headed by an Official of the State Pollution Control Board with Project Proponents of H&P Granites and Vismaya Rocks, a representative of Kummil Grama Panchayat, and a representative from Department of mining and Geology as members. The monitoring report of the committee shall be a part of half yearly completion report and the Project proponent shall take all corrective measures as suggested by committee”.

In this regard we request you to depute your representative to our quarry to witness the Environmental protection activities that are being carried out at our quarry and give a report to that extent which will be forwarded to SEIAA along with our Six Monthly Compliance report.

Hope you will do the needful.

Thanking you,

Yours faithfully

COCONUT PLANTATION NEAR QUARRY OFFICE

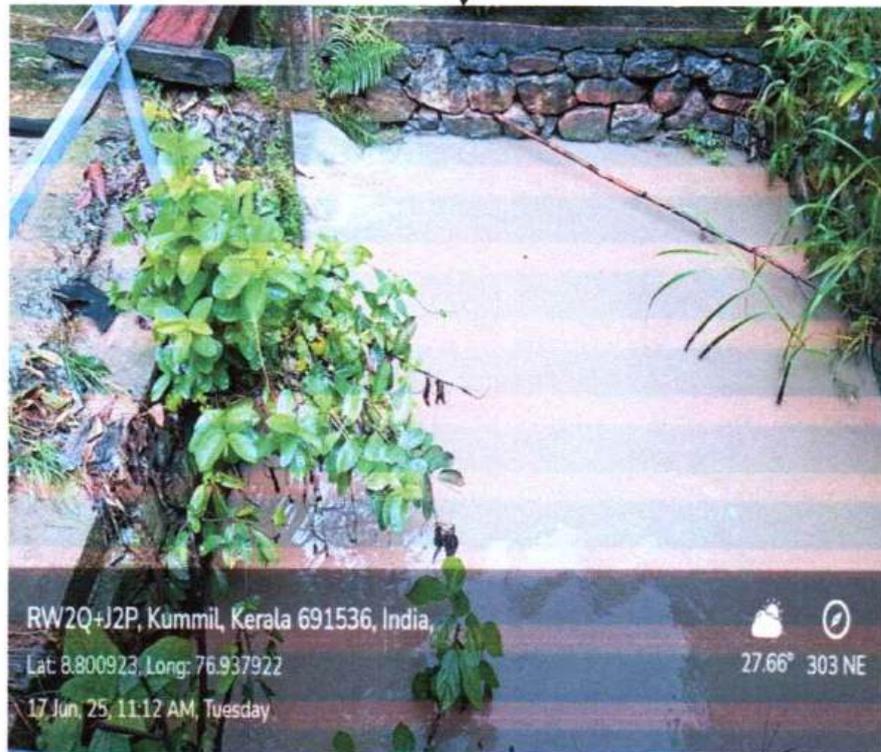

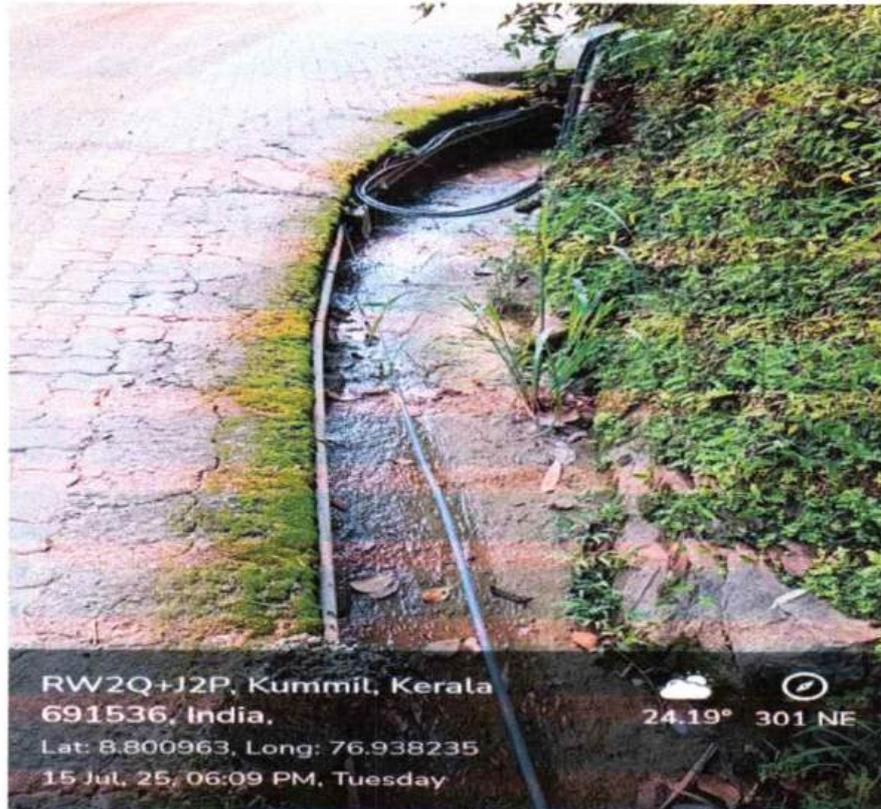

FRUIT BEARING PLANTS

BANANA PLANTATION AT BACKSIDE OF CANTEEN

DRAINAGE OUTFLOW FOR SE-SILTILING

DRAINAGE CHANNEL AND DE-SILTATION TRAP

Minutes of the public hearing as part of the public consultation in connection with the environment clearance of the proposed granite building stone quarry of M/s. H&P Granites in 9.0681 Ha of land in block 50 of Kummil Village, Kottarakkara Taluk, Kollam District.

The public hearing commenced at 2.30pm on 27.09.2019 at Town Hall, Kadakkal Grama Panchayath. The additional District Magistrate chaired the public hearing. The Chief Environmental Engineer, Kerala State Pollution Control Board, Regional Office, Thiruvananthapuram assisted the ADM in the proceedings. The representative of the project proponent presented the draft environmental impact assessment report. The public expressed their concerns and suggestions regarding the project as follows :

1) Humam Rasheed (Sastra Sahitya Parishad)

The precautionary measures presented regarding the project were attractive. However it should be ascertained whether only 44dB sound would be generated from the blast making use of 16.88 kg explosives. Many recommendations regarding waste management also are found to be included in the report. The possibility for silicosis disease is however not seen mentioned in the same. In the context of the recent floods new technologies shall be adopted for construction of buildings and roads. A copy of the report shall be made available. The following suggestions may be considered.

- i) The use of granite building stones in construction shall be limited.
- ii) Constructions shall be permitted only as per zoning.
- iii) A number of quarries are currently in operation in Kummil Panchayath and nearby areas. Operation of granite quarries shall be limited. Hence, new projects shall not be permitted.
- iv) Granite quarrying shall be entrusted only to agencies under the control of the government.

2) M. Rajeev. (Vice President, Kummil Panchayath)

The operation of the company is satisfactory at present. Hence, there is no objection to grant of clearance.

3) Manoj Kumar, Chithara

There is development in the area after the establishment of the company. Potable water is being supplied to the local residents by the company. Hence, there is no objection to grant of clearance.

4) Irshad A.M., Kummil

Rock quarries have adverse impact on the environment. However, since granite is essential for construction activities and also in the absence of alternative materials, quarrying may be permitted subject to norms.

5) A.P.M. Ilyas Rawther (Secretary, Library)

The quarry owned by the company is in operation for the past 2 years. The company is supporting social causes. Even though quarrying is detrimental to the environment, considering the requirement of granite as building material for the developmental activities clearance may be granted.

6) Kummil Sali, Chadayamangalam

The local people do not object to the operation of the quarry. Hence, clearance may be issued.

7) Ahmed Kabir (Ex. President, Kummil Panchayath)

H&P Granites has carried out activities for the well being of the public. They are supplying rock at government rate. H&P granites had assisted in the development of the locality. Hence, clearance may be granted.

8) Ajayan, Kummil

The company was started 3 years ago and is located about 500m from his residence. A public hearing was conducted recently for another quarry also which is nearby. The local people are supporting the project. From 1978 to 2012, about 22 nos. of unauthorized small scale quarries were in operation in the area. Even though there was employment generation from these quarries the same had to be stopped as a result of stringent environmental laws. As a result hundreds of locals lost their employment. Since the commencement of the quarry, around 100 nos of locals got employment. The operation of the quarry may be permitted without adversely affecting the environmental or causing nuisance to the public. The concerned authorities shall ensure the above.

9) B.H. Nifal

The locals have not expressed any objections to the project so far. Hence, the project is welcomed.

10) S.S. Pradeep, Nearby resident

So far no inconvenience has been experienced due to the operation of the quarry. Hence clearance may be granted.

11) Nazeera Beevi (President, Kummil Panchayath)

Continuous monitoring shall be carried out to ensure the implementation of control measures proposed as part of the project.

The Chief Environmental Engineer invited the project proponent to clarify regarding the concerns raised by Sasthra Sahitya Parishad. The project proponent clarified as follows.

Use of 16.88 kg explosive and sound generated.

The production per annum from the quarry of M/s. H&P Granites is 4,50,000 MT. Taking average 300 working days in a year, the per day production will be 15000MT. Blasting will be carried out thrice a day. The explosives are filled in holes drilled for about 1m-2.5m depth. 36 holes have to be drilled in this manner. Around 400-450 gm of explosive is required to fill each hole. The blasting will be in a delayed manner. Vibration of 7.28 and sound of 44dB will be experienced at a distance of 100m from the quarry. These values were calculated as per scientific formula. The building existing currently at 101m from the quarry is owned by another quarry. Hence, there are no residential buildings even at 101m from the quarry.

Silicosis

The silica content in the rocks found in this area is below 1%. There is chance of silicosis only if the silica content is 7% or more. The workers will be provided personal protective equipments. Dust suppression system (sprinklers) will be provided to control dust. Air pollution and related health issues will result only if there is emission of dust.

The following persons submitted grievances in writing during the public hearing

- i) Sri. P. Humam Rasheed (Sasthra Sahitya Parishad)
- ii) Sri. Ansari, Mukkunnam

The public hearing concluded at 4.00 pm

Date - 11th Dec 2024

Minutes of meeting held on 11th Dec 2024
 at building stone quarry of M/S H & P Granites

* The following members were present during meeting:-

SR.No	NAME	COMMITTEE ROLE
01	HARISH G. NAIR	MANAGING PARTNER
02	SHRIKHANDE CHAITANYA V.	MEMBER
03	SANEESH MULLIACKAL	MEMBER

The minutes of meeting last held on 12th September 2024 were reviewed by committee & points to raised during the meeting was appreciated by members.

The issued raised during last meeting was set off.

The following points were raised by members during this meeting :-

a) The reports of Air, water, Soil & noise level monitoring were reviewed by Mr. Harish G. Nair and identified of any exceed in data with standards. The report also cross verified with last recent monitoring data.

b) Discuss the problems arising for waste re-

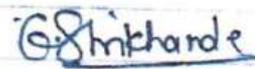

recycling of hazardous & non hazardous waste generated on quarry. Discuss how they can be treated, disposed & store separately.

c) For afforestation location Mr. Saneesh. M. suggested a place at canteen backyard. The fruit-bearing species of banana finalized on that location.

Mr. Harish G. NAIR
